In the original version of this article, the funding statement and acknowledgement section are missing.

The acknowledgement with funding statement are as follows:

This paper was partially funded by the European Union's Horizon 2020 research and innovation programme under grant agreement No 958454 (intelligent Water Treatment Technologies for water preservation combined with simultaneous energy production and material recovery in energy intensive industries- intelWATT).

This correction does not affect the results and conclusions of this work. The authors apologize for inconvenience caused.
